

**LET'S OVERCOME
THIS CRISIS
TOGETHER.**

INDUSTRY'S BATTLE AGAINST
COVID-19.

You can protect everybody with these ten tips:

1

Frequently wash or disinfect hands all the way up to the wrists.

2

When coughing or sneezing, cover both the nose and mouth with a tissue or the arm. Never with your hands.

3

Avoid touching eyes, nose and mouth with your hands. Always remember to wash or wash or sanitize hands before touching.

4

Keep two meters distance between yourself and others.

5

Replace hugs, kisses and handshakes with smiles and greetings from a distance.

6

Frequently sanitize objects and surfaces at your workplace.

7

Do not share personal objects with others.

8

Avoid crowds and gatherings.

9

Wear a protection mask.

10

Sanitize hands before and after touching objects of common use.

With these measures, we can avoid contagion and overcome this crisis once and for all.
