

## GOALS

Carbon neutrality in operations by 2040.

Carbon neutral growth from 2022.

100% of electricity coming from renewable sources by 2030.

Products for zero carbon aviation by 2050.

## **ENERGIA FAMILY**

	E9-HE	E9-FE	E19-H2FC	E50-H2GT
Seats	9	9	19	35-50
Range (nm)	500	200	200	350 - 500
EIS	<2030	2035	2035	2040
CO2 Emissions	-50% to -90%	Zero	Zero	Zero
Noise	-60%	-80%	-70%	-60%

Bold and viable solutions for a net zero carbon emissions aviation

## EMBRAER-X EMBRAER'S MARKET ACCELERATOR

Emerged from our necessity to forge new paths that positively impact our world by developing solutions to improve people's lives.

Created to lead the world at the intersection of Disruptive Innovation, our Core Competences, and our biggest strength: OUR PEOPLE.

# VEHICLE DESIGN OPTIMIZED FOR URBAN MOBILITY

Flexible seating capacity

High utilization rate

100% Electric Vehicle
ZERO local carbon emissions

**Tailored for urban mobility** 

**Unmatched cost efficiency** 

**Community-friendly** 

lower noise footprint compared to equivalent helicopters

Lift + Cruise design

Overhead wings with distributed rotors and rear propellers

## How will we sustainably generate value?

#### INTEGRATED MOBILITY

Provide a seamless end-to-end experience to end-users in the mobility of people and goods. Integrate traveler journeys for multimodal vehicles and multiple destinations.

### SUSTAINABLE BY DESIGN

Our ventures are committed to sustainability principles in their business development and operations.

#### AIRBORNE INFO-SYSTEMS

Integration of customer's operation through airborne systems. Managing and integrating data that meet the customer's needs.
